EXPERIENCE

2022-23

UI/UX DESIGNER

COMMISSIONED BASED

As a designer working on elearning course development, my role was to create visual aids and other learning materials using tools such as Figma and Photoshop. I used your design skills and knowledge of instructional design principles to create high-quality learning materials that supported the goals. I have worked on projects for clients such as Capstone Projects.

2021-23

Video editor

COMMISSIONED BASED

As a Video Editor I was responsible for editing captivating videos. These tasks likely required a strong eye for aesthetics and proficiency in cinematography. Overall, my role involved creating visually appealing and effective content for social media platforms.
